

# Account Success

October 15, 2017

Late last month, probably around the 21st or so since I had seen that the numbers I had found online were the real numbers I decided to go to some utilities websites to see if I could arrange payment online. Most didn't offer online payments as they are done through the bank but a couple, Enbridge Gas and Virgin Mobile had pre-authorized payments available where you could input your banking information. I decided to try.

For both bills I used 177 and 00006 along with MY Social Insurance number and set up pre-authorized payments. I had to wait because of billing cycles for the first payments to be made. The first was Virgin that was scheduled to be paid on October 14 then Enbridge on the 17th.

The screenshot shows the Virgin Mobile account portal. At the top, there are navigation links for 'SUPPORT' and 'MEMBER BENEFITS'. Below that, there are tabs for 'WELCOME', 'MY BILL', 'MY SERVICE', and 'MY PROFILE'. The 'MY BILL' tab is selected, showing a 'VIRGIN MOBILE BILL - 518120046' for the month of September 2017. The account number is 518120046. There is a 'Messages for September' section with a red notification icon. Below that is a 'BILL SUMMARY' section comparing the 'Previous bill' and the 'Current bill'. The 'Previous bill' shows a balance of \$125.09, with payments of CR \$125.09, adjustments of \$0.00, and an outstanding balance of \$0.00. The 'Current bill' shows an outstanding balance of \$0.00, services of \$31.91, taxes of \$3.90, and an amount due of \$35.81. The payment date is October 14, 2017. Payments of CR \$35.81 have been made, resulting in a balance due of \$0.00.

I checked online a few times through the day yesterday but no payments. Just after 10:00 last night I checked again ...

YIPPEE!!!

Now I'll just have to bide my time to see what happens.

Cheers Everyone!

Peace, Love, Understanding and as always In Honour!
